Nortiqo Data Health

Your X3 data, checked every night.

Each morning the people who own the data see what is incomplete, inconsistent, wrong or stuck, each finding with its record, its value where it has one, and its owner.

Last run

Run number	Run kind	Status	Start time	End time
DR00000373	Nightly	Finished	26-10-22 02:00	26-10-22 02:00

Areas

6 Results Display: 10

	Area	Verdict	New	Open	At stake	Currency	Top finding
1	Finance	Action needed	3	27	38563.72	SEK	Stock movements not posted: 4 findings
2	Sales	Action needed		5	2249.29	SEK	Sales orders open past their date: 4 findings
3	Purchasing	Action needed	1	5	20678.00	SEK	Receipts not invoiced: 3 findings
4	Stock	Action needed		7	30.00	SEK	Expired lots still in stock: 1 finding
5	Master data	Attention	1	35			Active products missing a weight or a cost: 24 findings

Last night's run. Each area's verdict, its new and open findings, the money at stake and its top finding. In Sage X3 · demo data

X3 holds the signals. Nobody reads them together.

Unposted invoices, stock that disagrees with itself and suppliers sharing a bank account hide in a dozen menus and logs until the close finds them. Nortiqo Data Health reads the folder every night and shows the people who own the data what needs fixing, what it is worth and where it is fixed.

How it works

01

Read

A nightly run, or one on demand, reads the folder's business data with 22 checks.

02

See

The board shows each area's verdict, its new findings, the money at stake and its top finding.

03

Fix

Most findings open their record in Sage's own function; the help says how to clear the rest.

04

Follow

The next run closes what it no longer finds, and brings back what returns.

What it does

22 checks every night

Across finance, sales, purchasing, stock, master data and reference data; some of them are listed below.

Findings kept up to date

New, open or worse, and closed by the next run once fixed.

Close readiness

For a company and a period, what blocks the close, in the order it is cleared.

Findings by site

Users see the findings of the sites their function profile gives them.

A board for the morning

One line per area: its verdict, its new findings, the money at stake and its top finding.

Straight to the record

Most findings open their record in Sage's own function; the help says how to clear the rest.

Each check set without code

Its thresholds, owners, companies and sites.

It never changes data

It reads and reports; every fix is made in Sage's own function.

Among the 22 checks

- ✓ Sales invoices not posted
- ✓ Periods left open behind the current one
- ✓ Negative or over-allocated stock
- ✓ Business partners sharing a VAT number or bank account
- ✓ Purchase invoices not validated
- ✓ Deliveries and receipts not invoiced
- ✓ Expired lots still in stock
- ✓ Invalid VAT numbers, IBANs and email addresses
- ✓ Journal entries still temporary
- ✓ Possible duplicate supplier invoices
- ✓ Stock counts left open
- ✓ Products missing a weight or a cost

Who it is for

Finance

What blocks the close for a company and a period, with its value, in the order it is cleared.

Sales, purchasing and the warehouse

Their own findings each morning, most opening their record in Sage's own function.

Partners

The same findings in the customer's X3, instead of ten questions before a review.

What it needs

- Sage X3 V12.
- The batch server, for the nightly run.
- For the help, browsers that reach nortiqo.com.

How to buy

Licence	**€1,800 a year** 20,000 kr

Prices exclude VAT. A business customer in another EU country pays no Swedish VAT: the reverse charge applies.

- A yearly licence for each production folder; your test and development folders are included.
- One standard X3 patch, installed by Nortiqo, your Sage partner or your own team, with installation and setup help from Nortiqo.
- Help and support in English.
- Bought through your Sage partner or from Nortiqo.

Buy through a partner: Systemstöd Sweden PU-0114
